# Werz Prof. Culture The second **Poland Enacts Special Powers** To Intervene in the Economy

By Jackson Diehl Wishington Past Service

GDANSK, Poland - The government of General Wojciech Jaruzelski gave its ministers special powers Tuesday to intervene in the economy in an effort to restart a

and Bing of Ra stalled reform program and to halt an inflationary spiral that led to a wave of workers' protests.

One day after workers in the Gdansk sbipyard abandoned a nine-day strike, the Sejm, Poland's parliament, met in Warsaw and formally approved a law that temporarily reversed much of the decentralization of economic management that the country bad carried out in recent years in an effort to reshape its economy with market forces. - 3 - 6

Central government ministers will be able to reverse decisions by state enterprises to raise wages and prices under the new law. Ministers can also order layoffs and the break up, merger or liquidation of companies, and dismiss managers who violate wage and price principles or block reforms

The government will have the authority to order a wage and price freeze.

The version of the law deleted provisions included in a previous draft that would have banned all protests and strikes. Instead, official trade unions have been restricted from initiating collective grievances against any action taken under the special measures unless they obtain permission from national union leaders in Warsaw.

21 The emergency measures, which were openly opposed by the trade unions as well as senior govern-ment officials in their earlier form, . . . . . were first proposed by General Jar-. . . . uzelski in march, when government Jofficials were already warning about excessive pay settlements for workers.

Since then the 16-day wave of strikes that ended Tuesday and a loosening of government tax regu-LODAY'S lations have led to big wage increases for workers around the IN FERRINGIU country. 809 33 84 W A government spokesman, Jerzy Malkowski, said at a news confer-SE AN SEE ( ENTI ence Wednesday that the printary executor of the new powers would page 8 be Deputy Prime Minister Zdzislaw Sadowski, an economist who.

# Kim Philby, Soviet Spy, **Curbs on Arms** Is Dead at 76 The House of Representatives

Compiled by Our Staff From Disp LONDON - Harold (Kim) Philby, the British double agent who penetrated Western intelli-gence for the Soviets before flecing to Moscow in 1963, died Wednes-day in the Soviet Union, British officials said.

The officials said they bad been informed by the Soviet Embassy in London that Mr. Philpy, 76, had died. They said they had no further details.

Mr. Philby was possibly the most important agent everto serve Mos-cow from inside the Western intel-

ligence apparatus. A "mole" who gained official ac-cess to the most sensitive secrets of Britain and the United States at the height of the ColdWar, Mr. Philby was often called the spy of the century.

Because his discovery profoundly embarrassed both the British and U.S. intelligence communities — and because is escaped — the scope of his artivities was slow in coming to light after his disappear-ance from hisjob as a journalist in Beirut in January 1963.

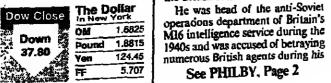

Born to a prominent British family and educated at some of the best schools in Britain, Mr. Philby was so valued as an espionage expen by the British secret service that at one point he was being groomed to be its chief.

He was a spy for 30 years while he worked for the British secret Michael S. Dukakis of service and became known as the Massachusetts won sweep-"third man" who tipped off fellow spies Donald Maclean and Guy ing victories in Democratic primaries in West Virginia Burgess that they were under inves-Page 3. tigation by British authorities in the late 1950s.

# Soviets Let Cultural Exile Pay Visit, Raising Hope of Others

By Esther B. Fein New York Times Service

MOSCOW -- One of the most prominent Soviet cultural figures forced intn exile for challenging artistic orthodoxy has returned in Moscow to help stage a play at the theater he founded.

The banisbed artist, Yuri Lyubimov, former artistic director of the Taganka Theater, was stripped of his citizenship in 1984 while touring Britain, and he had been unable to return to the Soviet Union until this week.

Mr. Lyubimov, 70, is the most significant Soviet artist in exile to come back to work since Mikhail S. Gorbachev became the Soviet leader in 1985. Rudolf Nureyev, the ballet star who defected in 1961, was allowed to return last fall for two days to visit his ailing mother, but he did

not perform. The return of Mr. Lyubimov on Sunday for a 10-day stay may help smooth the way for other emigré artists like Mikhail Baryshnikov, the ballet dancer, and

Mstislav Rostropovich, the cellist and conductor, in negotiate terms enabling them to visit the Soviet Union from their new bomes.

Tuesday afternoon, tired after rebearsing with his former company, Mr. Lyubimov settled into his old chair at the theater office. It had been four years since he sat in this chair, behind his old desk, but he was quickly comfortable in

its familiar embrace. "Imagine if you didn't see your family for years," he said. "Imagine your love for them, for the streets, the house you grew up in, the place you were born in and grew up in. That's exactly what I feel and it's always painful to talk about it." Yevgeny Yevtushenko, the poet, said

there had been controversy in Moscow over allowing Mr. Lyubimov in return. "There was a big fight around the invi-tation," said the poet, who is a longtime

friend of the director. "Some bureaucrats didn't want it. We have heard that Gorbachev himself approved the invitation." Mr. Lyubimov said that be "came here

to work." and that it was not his intention in move back to the Soviet Union. He bas contracts and commitments in the West for the next five years, he said, but added that he boped this visit was an indication that "all of my free time, between contracts, I will be able to spend here."

ders.

Mr. Lyubimov is belping Taganka to stage the Pushkin play "Boris Godunov," his version of which was banned the year he left.

As founder of the Taganka Theater, and its director for 20 years, Mr. Lyubi-mov molded it into a basuon of the radical and avant-garde, repeatedly chal-lenging traditional Soviet approaches to cultu

In Mr. Lyubimov's adaptation, the story of Czar Boris Godunov suggests com-parisons between the problems of 17thcentury Russia and those of modern Soviet life.

The decision in allow its production now is being regarded as a sign of increased openness in unorthodox ideas,

part of what Mr. Gorbachev calls glas-

company and in work inside the building

where their artistic experiment began. "I know every corner, every window," he said, walking through the halls. "And I love them all."

He spent his first day back, he said,

visiting the graves of his parents, grand-

parents and his older brother and reac-

quainting himself with the land he still

"You think Rostropovich wouldn't come bere with pleasure?" Mr. Gubenko asked. "I think he would be glad for the Mr. Lyubimov, who lives in Jerusalem, opportunity to share with his compatritried to play down the political imporots, and I think they should have that tance of staging the play and also of his opportunity to share." visit in Moscow. He preferred, instead, to enjoy once again creating theater with his Allowing Mr. Lyubimov to return and

to work is "a sign of tolerance." said Mr. Yevtushenko. He added, "Many things in the famre depend on how this visit goes.

Mr. Yevtushenko said he had heard that the Soviet leader "was quoted as lelling a friend that he was not angry at the letter Lyubimov signed in 1987. an open letter signed by several Soviet emi-gres questioning the authenticity of liberalization under Mr. Gorbachev.

Mr. Lyubimov's break with the authorities came after he staged "Crime and Punishment" in London and became embroiled in a dispute with the Soviet Embassy. Mr. Lyubimov said on British television that a Soviet diplomat had threatened him.

F

# **U.S. Analysts Say Gorbachev Buys Time With Arms Talks**

By George C. Wilson Washington Past Service

WASHINGTON - U.S. intelligence analysts portray Mikhail S. Gorbachev as a Soviet leader pursuing arms control agreements to provide time to modernize his country's industrial base so it can produce not only consumer goods but also the high-technology weapous oceded to close a gap with the

This portrait is sketched by the Central Intelligence Agency, the Defense Intelligence Agency and the Pentagon in a recent series of reports, and it is filled out by Soviet specialists within the government familiar with the secret as well as poblic assessments of Mr. Gorbachev's policies and their chances for success

According to the analysts, Mr. Gorbachev confronts the following problems on the military front:

• He cannot make any big sav-ings immediately in the Soviet military establishment because the high-cost items are in full production and cannot safely be stopped. Cases in point are the Typhoon and Delta IV submarines, which would have to carry more of the nation's nuclear firepower after a strategic arms reduction agreement.

• The present industrial base cannot turn out the high-technology weapons that the West will field in the 1990s and beyond although Soviet military leaders are calling for quality as well as quantity. Arms control agreements would reduce the pressure on Mr. Gorbachev to close the technology gap.

· He almost certainly will not be able to transform the industrial sector into high-technology capability by the time production runs of the current generation of weapons end in the early 1990s. Unless he can point to arms control agreements that make matching the West's weapons less urgent, his generals will press him to produce more of the old weapons at great expense, eating up money and production capability be would rather devote to consumer goods without closing the high-technology gap.

# **Shiites Gain** In Fighting In Beirut

By Ihsan A. Hijazi New York Times Service

BEIRUT - Pro-Iranian Shiite fundamentalists appeared Wednesday to have gained the upper hand in Beirut's densely populated southern suburbs after six days of heavy fighting with their rivals in the Syrian-backed Amal militia.

Fighters of Hezbollah, the Party of God, gained the ground in renewed clashes after a brief lull in the violence Tuesday. A Hezbollah communiqué said beadquarters of forces to be a legitimate, if drastic, Amal in Burj al-Brajneh, one of the defensive measure.

 Denied the option of canceling existing weapons production to a 'great burden' on the economy free money for consumer goods, and indicated that, in the future, Mr. Gorbachev has been forced to military requirements would have squeeze money out of the military's to be based on the principle of operation and maintenance, called 'reasonable sufficiency,'" the re-"readiness accounts" by the Penta- port went on. gon, which contain money needed to keep ships steaming far from home. The U.S. flotilla in the Gulf, for example, costs about \$1 million.

a day to operate. Mr. Gorbachev, who came to power in 1985, last year found weapons eating up the military's procurement budget as he tried to find money for cousumer produc-tion, according to the CIA and De-fense Intelligence Agency. The weapons included Typboon and Delta missile submarines, the Soviet answer to the U.S. Trident missile boats; the Sierra and Akula class attack submarines, which are being refitted for quieter running in the bope of evading U.S. detection;

# Danish Crisis Grows as Schluter Quits

COPENHAGEN (NYT) - Prime Minister Poul Schluter resigned Wednesday after failing to win a clear mandate for his pro-NATO military policies in the general election Tuesday. The resignation, originally regarded as pro forma, set off unexpectedly

intense parliamentary maneuvering that cast doubt on Mr. Shinterse, future and boded further confusion over Denmark's relationship with the North Atlantic Treaty Organization.

Mr. Schluter, a Conservative who called the election as a referendum on Denmark's willingness to support NATO by allowing U.S. and British ships carrying nuclear weapons into its ports, initially said he had tendered a "temporary resignation" in preparation for forming a new government.

But in a surprise development, Queen Margrethe invited a parliamen-tary leader from the rival Social Democrats to chair discussions about who should lead the new government. The queen's action underscored the complications of parliamentary politics in a country where eight parlies are represented in the 179-scat Folketing. Analysts said it could be some time before it is clear whether Mr. Schluter or one of his rivals will form the next government.

# West Bank Shops Are Forced to Shut

JERUSALEM (Reuters) - The Israeli Army forced shops on the West Bank to close Wednesday, retaliating for two days of strikes marking the start of the sixth month of a Palestinian rebellion against Israeli rule: Soldiers drove through the cities and towns calling through loudspeak

ers to shop owners not to open until noon, residents said. They said soldiers had told them they must remain closed until midday for two weeks

Leaders of the uprising in the occupied West Bank and Gaza Strip have allowed shops to open from 9 A.M. until noon, while the army has attempted to force them to close during those hours. An army spokesman said that he had not heard of the closings and that there was no new policy.

# Car Blast in Nicosia Kills 3, Hurts 19

NICOSIA (Reuters) - A car filled with explosives blew up in central Nicosia on Wednesday, killing three people and injuring 19 as it sped away from the Israeli Embassy, where guards had stopped it from

The police said later they had arrested a 28-year-old Lebanese student Omar Ahmad Hawillo, who owned the four-wheel-drive Mitsubishi Pajero containing the explosives. The Cyrus radio said Mr. Hawillo had fied the vehicle moments before it blew up. The explosion killed the driver of the Mitsubishi, a Cyruiot woman in a

car behind it and a former Cypnot diplomat, police and government officials said.

# **Belgrade Extends Wage-Price Freeze**

BELGRADE (AP) -- The Communist government failed to secure expected Western credits and delayed the end of a partial wage and price

freeze due to be lifted May 15, a senior official said Wednesday. Deputy Prime Minister Milos Milosavijevic told the Communist Par-ty's Central Committee that in ternational financial support was crucial to ending the six-month wage and price freeze imposed in November in an attempt to carb 170 percent inflation.

The Basel Bank for International Settlements has approved only half of an expected \$500 million bridge loan for Yugoslavia, Mr. Milosavljevicsaid. He said the bank's action, "makes it impossible" to implement what said. He said the bank's action, markes it impossible to imperient when the government bills as a new package of market-oriented economic, reforms beginning with the lifting of the freeze on May 15. He added that he expected the rest of the loan to be raised in about 10 days during negotations with some unidentified European governments and with the United States.

# For the Record

An attempt by officers and soldiers in two military bases to overthrow the government of President Marco Vinicio Cerezo of Guatemala has been quashed, the Guatemalan Army announced Wednesday.

# TRAVEL UPDATE

Sealink Tries to End Truck Blockade

LONDON (Renters) — A British ferry company tried Wednesday to end a three-day truck blockade of English, French and Belgian ports by offering to carry only freight on some of its Channel crossings. More than 600 trucks packed a 10-mile (16-kilometer) section of the M20 motorway near Britain's main Channel port of Dover in a protect by

drivers against a 14-week scamen's strike that has disrupted ferry service to and from Europe.

# LD BRIEFS Noriega Steps Up Use of Repression, **Opponents** Assert

By James LeMoyne New York Times Service

Grows as Schuler PANAMA CITY --- The mili-tary regime of General Manuel Antonio Noriega is regularly using sexual humiliation, threats, impris-omment, beatings and punitive fines to intimidate the general's op-ponents, according to human rights investigators, diplomats and oppositioo leaders.

bop- tre Forced Instead of showing signs of com-promise, the critics of the govern-ment say, General Noriega is hard-ening his hold on power despite refforts by U.S. officials to persuade him to resign.

Unlike some other Central American governments that have murdered thousands of suspected opponents, the Panamanian military regime almost never kills its critics. In 11 months, there have been only three deaths attributed to political strife. But the repression, carried out by the army, which controls most of official Panama, has been effective in weakening and dispiriting General

fascination with the sexual bumiliation of prisoners."

More than 40 beatings or arrests of Panamanians suspected of op-posing the government were re-ported in Panama City in the last week. In one case, the 18-year-old daughter of a prominent businessman was arrested by soldiers, beat-en, stripped and forced to crawl on the floor for several hours while singing a song praising the army, according to family friends. Two diplomats who investigated the case corroborated the account.

The army forced the young woman's father to pay \$10,000 to get ber out of jail, an especially punishing fine at a time when little cash is available because of the economic crisis in Panama. Two days later, gunmen broke into the father's jewelry store, looted it and killed a private security guard.

Two other cases last week showed the orchestrated nature of the military regime's repression, which apparently is aimed at cul-ting off the leadership of the political opposition.

On Thursday, the police arrested Ivan Romero, the secretary-general of the opposition Christian Democratic Party. They stripped him, beat him and after bolding him for eight hours expelled him from the country, according to party leaders. There are other signs of a hard-

ened military stand that appear m-tended as signals to Washington. An air force pilot who defected from Panama recently told U.S.

# A Treaty in Trouble

# Soviet Backsliding

Page 4

A thicket of problems suddenly threatens the U.S.-Soviet pact to withdraw medinmrange nuclear missiles from Europe. The pact, a centerpiece of Reagan administration diplomacy, may die in the Senate if the latest dispute cannot be resolved by Secretary of State George Shultz and Foreign Minister Eduard Shevardnadze in Geneva this week.

The Senate is right to be concerned about what it perceives as Soviet backsliding on agreed verification procedures - and right to press for reassurance. The points in dispute are quite minor but the principle is not. The Senate leadership, with the support of the White House, will not, rightly, even let the treaty be brought to the floor for ratification until the differences are resolved.

The Euromissile treaty has captions enemies in Washington as well as in Moscow. Some believe that it concedes too much to the Russians; others would deny the Reasan administration a diplomade triumph. Those who now delay the treaty come from neither camp. They include the chairman and the vice chairman of the Senate's Select Committee on Intelligence — David Boren, a Democrat, and William Cohen, a Republican. Their concern is over technical issues. Will American inspectors be permitted to look inside small containers at Soviet missile sites, as was agreed last January, or only into those large enough to hold an entire SS-20 missile, as Moscow now asserts? May

inspectors look anywhere within the designated sites to be monitored, or only at specific buildings? May the Russians veto use of cameras during inspection?

The 10 such issues outstanding do not greatly alter American ability to verify Sovict compliance with the agreement. Yet the Senate is anaply justified in making a fuss. The complex treaty is rife with opportunities for differing interpretations. If the Russians are allowed to backslide even before the treaty is ratified, the stage will be set for even more corrosive disputes later on.

Now that the issue has become serious enough to threaten the treaty, the Kremlin has every incentive to revert to the agreed language. When and if it does so, it will be the White House's turn in satisfy other problems that the Senate has raised. Senator Sam Nunn and others challenge the doctrine that the administration developed to justify tests of "star wars" components - that the executive is not bound by official testimony given in support of a treaty's ratification. Senator Boren seeks a guarantee of funding for new satellites to monitor any future agreement on strategie arms.

Both sides have too much in gain from the Euromissile pact to let it perish now, as they prepare for the Moscow summit meeting starting on May 29. Moscow and Washington will expose the treaty, and more, to a ode of fault-finding if they do oot quickly resolve these valid verification concerns. -THE NEW YORK TIMES.

#### Clarity Is Worthwhile

The sky has darkened some over Reagan administration hopes of persuading the Sen-ate to ratify the INF Treaty before the Mos-cow summit starts on May 29. Several points on verification had eluded agreement beadministration evidently thought that they could be left to the Special Verification Commission that is to be set up under the provisions of the treaty. Several senators who are essentially friendly to the idea of the treaty believe that the testimony revealed that the Soviets were backing off from clear commitments earlier made on verification; they demanded that the matter be cleared up now, arguing among other things that the treaty would be vulnerable to defeat if it was not cleared up before the debate took place. A president who goes around reciting the Russian folk saying "trust but verify" was in nn position to call them off.

In his meetings with the Soviet foreign minister in Geneva this week, Secretary of State George Shultz is trying to resolve the problems, Success would still leave the administration locked in conflict with the Senate over the issue of whose interpretation of a treaty is binding. So it is at least possible to be appreciated by the public at large. that President Reagan will be unable to

avoid the disappointment and embarrassment of heading off to Moscow without a ratified treaty in his pocket. We hope that this will not be the case. But

we also think that it is worth a good deal for the Senate in be clear about INF, in terms of making sure that this treaty is all that it's tween Soviet and American experts. The cracked up to be and of building confidence at home for subsequent negotiations.

It is important to understand, however, that oo treaty, including this one, can be made foulproof if only the United States is sharp and insistent enough about it. This is true despite President Reagan's claim a while back that the clauses in any arms control agreement that he negotiates are going to be "hard and fast." Even if the outstanding differences are negotiated away in Geneva, the most diligent and hard-nosed negotiation will leave effective monitoring dependent still on some degree of mutual good faith and good sense. Counting launchers by overhead spy camera, as in the past, is easy compared with the requirements that the new treaty imposes to count inventories of smaller, more concealable missiles on site and to police production facilities for years, These are oncrous tasks that have yet either to be organized by the respective bureaucracies or

# A Polish Opportunity Is Going to Waste

Poland takes place at the same time that a great opportunity is being lost. Behind the shabby facade of present-day Poland, amid poverty and deprivation, popular forces exist that might again be mobilized on the side of an intelligent and courageous leadership. And the international context has changed since the counterrevolution of 1981.

The recent strikes result from Poland's ravaged economic condition. It has the slowest growth and the highest inflation rate in Eastern Europe. Nearly half its industrial capacity is unused because of mismanage-ment or lack of parts. What it makes it cannot sell abroad. The country is polluted. Health standards are sinking toward those of the Third World.

To do something about this a government must have support from workers and from the public as a whole, General Wojciech Jaruzelski, the military dictator, sought such support when he called a referendum on economic reforms in November. He won a majority of the votes cast but not a majority of the eligible electorate. But he went ahead in impose price rises by as much as 200 percent on some goods, and 40 per-cent overall. Workers now are demanding substantial pay increases. The recent unrest has demonstrat-

ed the government's failure to win the public's cooperation. The public may also have an unrealistic nutico of what can be done in Poland's economic circumstances. The result is impasse. There is a limit on how far the government can coerce people.

Poland is often held in be a nation doomed to suffer, a martyr nation. It has undergone wars, partition, extinc-tion as an independent state (from 1794 to 1918), invasions, genocide (Poles were second only to Jews in the Nazi death camps; a fifth of the population was killed, disproportionally from the governing and professional classes). Since 1945 there has been domination by a hereditary enemy.

It is true that modern Poland has seen calamities, but there is romanticism in the convencional view as well, as Adam Zamoyski, author of a new history, "The Polish Way," argues. Poland has seen fewer disasters than many nations, and its history is one of political creadvity and innovation.

Poland, for years the great power of east-central Europe, possessed a form of habeas corpus before Britain did. It had a constitutional, elected monarchy from the 14th century on, an advanced form of parliamentary government from the 13th century. During the country's partitions in the 18th and 19th centuries, and again

under Nazi occupation and Soviet

domination, the Poles created a nation cial spokesman says) "the govern-within the nation, an underground na-neat will not talk in illegal structures tion in which vital institutions of civili-ind Solidarity is an illegal structure." zation and society were spontaneously fet he asserts that "there will be no organized outside of, and in defiance of, the official organs of state. Solidarity has been the latest in-

stance of this, a spontaneous movement that proved powerful enough in 1980 to compel the government to negotiate with it, and eventually to cause the effective collapse of Communist government and party. It was then that the army took over.

General Jaruzelski today has a vision of what has to be done for Poland, but it is a limited one. He has done too much and not enough. He has conceded that events now are at a turning point, yet he refuses to deal with Solidarity because (as his offi-

# The Pain of Change Is All the Greater

#### **By Flora Lewis**

N EW YORK — The strains of attempting ited reform in Communist countries provoke reflectors on old political and even deeper human issues. Charge is necessary and inevitable, but it always brings pain. V: and revolutions make subsequent change even harder, not by because they concentrate power beyond civil challenge us also because they instill such an attachment to orier,

stability and predictability, and such a fear of risk. A remarkable series in The New York Times on hrordinary Soviet citizens are experiencing Mikhail Gort:chev's program illuminates the difficulties. Poland remain in an abrasive, debilitating deadlock because the people dy not believe the government and the government does not want and does not know how to believe the people.

China is groping for a smoother way to effective development after two generations of bloody tormoil guided by a totalitarian vision. But it has destroyed both the old instimtions and the new system of beliefs that provided assurance. As a 35-year-old film director, Chen Kaige, said recently: "The Chinese people today are torn by contradic-tions. China is more open compared with before, and that is good. But now people can't decide what is right or wrong." Ideology can be an irritant to the free-spirited, but it

can also be a comfort to many. Mr. Chen, who has had prohlems with censorship, says boldly, "Freedom is something that is my own, not something the government can give me." But people learned to live with the myths of their commanded assumptions.

Thus even the dissident Soviet poet Joseph Brodsky, a Nobel Prize winner oow living in New York, rises to a vigorous defense of the Soviet Union against mild charges of imperialism and colonialism from East Europeans. It was at an unusual writers' conference in Lisbon. The Europeans from countries under Soviet dominion talked about Soviet tanks, and the Russians were astounded clinging to their notioo of themselves as liberators and virtuous allies. "The concept of Central Europe is not known to Soviet citizens," Mr. Brodsky said tartly, supporting his compatrious from Moscow,

By simplifying and proclaiming, ideology makes the world easier to understand. But a time comes when its

dently go. Since then the situation in the Soviet Union has undergone a crucial change. Moscow has broken out of stagnation, acknowledges the scale of its own problems and of the whole socialist bloc and has demanded that its Warsaw Pact allies look for solutions of their own. Poland's goverament has wider possibilities for reform open to it than ever before.

OPINION

It has failed to seize them. The only realistic possibility is the one Lech Walesa has identified: "economic pluralism, trade union pluralism and political pluralism." This carries risks, certainly, but no responsible alternatives exist. Someone has to lead Poland out of its economic and

political impasse. On the sad evidence of the past seven years, General Jaruzelski is not the man to do it. International Herald Tribune.

© Los Angeles Times Syndicate.

inability to deliver on its promises empties it of all but The American historian Fritz Stern has called Macrism a

"self-oceating prophecy," and he sees Mr. Gorbachev as a kind of Martin Luther, challenging an old legitimacy cor-roded by failure and corruption. The Communist countries are having to grapple with what they made of Marxism. Its inherent values and misjudgments are made more evident. Obviously, Marx was right in noting the historic injustices committee by possessors of power. He was wrong in concluding that power is determined by property, and that wiping out property would wipe out injustice.

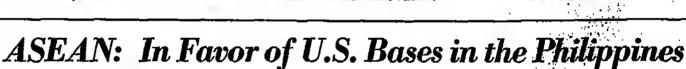

He wrote in the period of change from rural, basically fendal, to industrial society. Industry is achieved by organization at a much higher level — of labor, of the means of production, of decision-making. It implies one kind of concentration of power. It has always been known that coagniated power is occessary for achievement by a society, but economic power is not the only kind.

Power is implicit in human relations. Man is a social minal. There is an arge to share, to marture and protect, and also an urge to dominate. This may seem a contradic-ton, but it is two inextricable sides of the single human andition. There is a physical vulnerability that obliges people to band together for survival and well-being. And that is a capacity for ingenuity, for innovation and imaginame that not only encourages but requires self-assertion. The framers of the American Constitution focused on

poincial power, not economic power, relying on people's self-conscious sense to use leverage for balance. They did not cream of removing power from human relations, as Marvist theory fantasizes, but made a point of separating. and dispersing it to counter abuse. The rule of law that they propuladed assumes the existence of power - to enforce the laws - but under rules that prevent its arbitrary use and excessive concentration. And it facilitates change.

Vision and ideals are human needs. But they must produce human benefit in the world we know. A disillusioned Mazambican Communist, commenting on the revival of the church in his ravaged country, said: "The difference is, we're expected to deliver our promises in this world. They don't have to.":

The New York Times.

K UALA LUMPUR, Malaysia - Preliminary talks between Filipino and U.S. officials oo the future of the Clark and Subic Bay bases began last mooth. The current agreement, which allows U.S. forces unhindered access to those two bases and other facilities, will expire in 1991. As the ocgotiations heat up, other actors will become involved, including Japan and members the bases. It hears costs and burdens that are of the Association of South East Asian Nations, oot shared by the other ASEAN members. Ob-

the Philippines or asked for their removal.

The Philippine voice will of course be decisive

in the councils of ASEAN on the question of the

bases. If Manila wants to retain an American

military presence, and if statements of support

from its ASEAN partners for that presence are

seen as occessary in determining the outcome,

there should be oo doubt that every government

It is true that the existence of big-power mili-

ble with the establishment of a "zone of peace.

drawn simultaneously. Uotil we come close to

JOHANNESBURG - Whenever

I am downhearted and depressed at the course of events in South Afri-

ca - and which of us can honestly

say that our courage never flags or fails? — I have nnly to think of Helen Suzman, and of all she has done and

endured and achieved over the last 35

years, to feel a resurgence of confi-

I was a member of Parliament from 1948 to 1958 and remember very well the beginning of Helen Suz-man's long career. It was impossible

not to be impressed by her intellect,

her grasp of economic issues and the lucidity of her exposition. She made it abundantly clear that

the realization of South Africa's eco-

nomic potential simply could oot be

reconciled with the policy of apart-heid — and that, I'm alraid, is a

dence, determination and faith.

realizing such a zone, a continued U.S. military presence in the Philippines is probably a necessary prerequisite for bringing it into effect. The Philippines has a unique perspective on

Japan, China and the Soviet Union. A sound balance is in the interests of all ASEAN countries and probably of all the big powers. • Terministion of the U.S.-Philippines bases agreement would be likely to erode the credibil-ity of Washington's commitments to its treaty allies, especially Thailand. There is concern in ASEAN that Theiland might have the de-ASEAN that thailand might become too de-pendent on Chim if the Americans were seen to withdraw. It is in the interest of no ASEAN member for an Southeast Asian country to be too reliant on any outside power. · It has been argued that foreign businessmen and investors, especially from Japan and the United States, feel more secure about the ASEAN community when U.S. military forces are stationed in the region. • Any future bases agreement will be eco-comically beneficial to the Philippines. Economic resilience is one of the keys to the country's political future and prosperity. What is good for Manila will generally be good for ASEAN. The Association of South East Asian Nations can thus be expected to give strong endorse-ment to a continuation of the U.S. military presence at Clark and Subie Bay. The questioo whether this will make a substantial difference to the criocal battle, which will take place within the U.S.-Philippine equation.

<del>م</del>ار مرد داند در ا

By Richard W. Bulliet

N EW YORK - The wind is blow-IN ing again across the marsh grass of Middle East politics. Patterns form and disappear deceptively. Only by intuition and experience can one tell where there is solid ground or quag-mire. Beneath it all lies the bedrock of. Israel and of the Islamic movement.

A distinguished British diplomat with unsurpassed Middle East creden. tials once prefaced a talk thus: Had hepredicted in 1970 that within a decade of oil prices would skyrocket, the shake would fall, Lebanon would erupt; Egypt and Israel would shake hands and Islam would become the region's most feared political force, he would have been dismissed from Her Majes-ty's service for reckless incompetence. overtaken by events. Being overtaken by events is the norm in 20th century

iddle Eastern history. -- .... Too many variables, too much in-terconnection. Middle East politics is like a three-dimensional pool game in .... a weightless environment.

The Iran-contra affair embarrassed Sandi Arabia and raised suspicions of American inconstancy. So when Irani-an pilgrims drew their knives in Mecca, the Saudis were more inclined than ... they would otherwise have been to respond in a confrontational manner. Iran reciprocated with threatening, words for Sandi Arabia and Kuwait Scrambling to recover its lost innocort Kuwain tankers and then raised the temperature of the Gulf with the naval buildup that followed the attack on the frighte Statk. Heightened con-frontation and Smdi jinters led to an Arab summit meeting at which oppo-sition to Iran was placed on the front burner and the gas was turned off on the Palestinian issue. In response came the uprising on

the West Bank and in Gaza. And in the fifth month of unreleating violence came three more events: the hijacking of a Kuwait Airways flight from Bangkok, an assassination in Tunis, a violent naval exchange in the Gulf. How are they interconnected?

Ever willing to believe the worst of Iran, Americans were likely to apthe Gulf even though those attacks were incommensurate with the isolated mine explosion that tore a hole in the bottom of an American vessel. The ball has been smashed back into the. Iranian court and there, as in the past,

it will probably safely die. The perpetrators of the Kuwaiti hi-jacking reinforced world horror at terronsm just as the world was pressuring Israel to relent vis-a-vis the Palestine Liberation Organization. Resolution of the Israeli-Palestinian conflict is not in everyone's interest. Israel took the opportunity offered by the hijacking to carry out an assassination that could affect the political stability of the PLO and thus outflank the West Bank and Gaza demonstrators.

The inclination of rational observers is to search for a civilized resolu-

tion of the Israeli-Palestinian dilem-

ma, to urge all countries to maintain a'

steadfast front in the face of terrorism.

to exert measured pressure to keep the Gulf situation from getting out of con-

trol and to work for a cessation of the

carnage on the Iran-Iraq war front.

But this assumes that these are discrete.

crises that can be considered individ-

ually. They are not. Everything in Middle East politics is interconnect-ed. Every plausible projection of a

resolution of conflict is predictably overtaken by unpredictable events.

but do not fully reveal the firm ground beneath the shimmer of the waving grass. The Gulf situation remains a

bomb without a detonator; the Irani-

ans will absorb U.S. punishment - so

little compared to what they suffer

# **Other Comment**

#### **Poland Needs Partnership**

[Poles] are not prepared for reform under their current regime. The signs of decay are everywhere: not mercly in real wages, croded by inflation and the shortage of goods and services, but in health, housing and environmental deterioration. The government itself proclaims the urgent need for change, and has committed itself to perestroika. But the Communist system has so paralyzed Poland that any effective restructuring is going in lead to dislocation and suffering on a massive scale. The Polish regime does not have the legitimacy to ask its people for selfless effort. The only way for it to gain such legitimacy, and create the con-sensus necessary for harsh economic measures would be to take the opposition, and in particular Solidarity, into partnership.

- The Times (London).

It seems that the Jaruzelski regime fears that if it approves the grass-roots movement then a torrent of freedom will sweep through the country. But the government should realize that it must risk a political adventure to salvage the country from impoverishment. Soviet leaders most certainly know this, and Inviting Nuclear Accidents Until the superpowers become serious about the need to keep the raw materials of ouclear weapons out of the hands of governments - and terrorist groups - that have no business possessing them, progress on other arms control issues can only breed a faise sense of security.

The United States and Japan have reached an agreement that will provide Japan with as much as 400 metric tons of plutonium - the equivalent of the combined nuclear arsenals of the United States and Soviet Union over the next 30 years. The agreement will establish a dangerous shuttle system in which spent nuclear fuel and reprocessed plutoni-um will be flown back and forth between Japan and Western Europe. The shuttle system seems like a perfect plan for making nuclear accidents more likely.

Regan says that America already has its 41st president and she was mean to him. The truthfulness of the book is hard to gauge but impossible to assume. In Mr. Regan, the vanity of the bully is now mixed with the bitterness of humiliation. Furthermore, authors of kiss-and-tell house are dishonorable. A necessary Nancy Reagan is a continuing indepen-Nancy Reagan is a continuing indepen-dent power in this administration.

Mr. Regan, who once announced that like throw-weight, is complaining, true to form, that Mrs. Reagan has opinions "far out of her proper area of competence." His competence evidently extends to defining such proprieties.

Confidentiality is central to govern-meni's ethic of collegiality. The viola-tion of that ethic by David Stockman, nel, particularly in expediting the depar-tures from the administration of Labor tures from the administration of Labor now Donald Regan may spring from a Secretary Ray Donovan, CIA Director facet of conservatism. Many conservatives despise government, and perhaps for that reason disregard civilities suit-ed to its functioning. People who de-welfare of her husband's administration. And her political judgment was correct. Nothing more annoys Washington than a person who is prematurely right, meaning right in advance of the herd.

The reported resort to astrology in the White House has occasioned much merriment, It is not funny. Astrological gibberish, which means astrology generally, has no place in a newspaper, let alone in government. Unlike comics, which are part of a newspaper's harmless pleasure and make no truth claims, astrology is a fraud. The idea that it gets a hearing in

government is dismaying. Mr. Regan claims that astrological considerations influenced only the iming, not the nature, of presidential actions. That is too much, but not much. Mr. Regan claims that his genius for

running things was impeded by Mrs. Reagan. But remember how he boasted rompTer. It hasn't exactly worked out of his comprehensive supervision of things. He boasted, that is, until the Unfortunately, and this has been the Tower commission agreed with his boast

Mr. Regan, whose presence in the White House was evidence of Mr. Reagan's often frivolous approach to gover-In Praise of a Physicist nance, reveled in the power he enjoyed But why does Ronald Reagan mistake because of that frivolousness. But Mr. passivity for delegation, and fantasy for accomplishment? Gail Sheehy's new Reagan's lassitude, such as that on pages book, "Character," notes that adults 381 and 382 of Hedrick Smith's "The whose childhood was darkened, as Mr. Power Game; How Washington Works." something other than a global infection seems difficult to sustain, But your fea-ture (April 22) on Stephen Hawking, the crippled theoretical physicist, is a re-

In 1985, in a radio interview by teleminder that excellence is attainable, that phone from the ranch, President Reagan hardship is simply an obstacle and not a said something preposterous about Sonth Africa: "They have eliminated the ready excuse for failure, and that the human spirit need not wallow in mind-The Sheehy thesis requires some pa-ticnce with psychobabble, but there is country." Mr. Smith quotes Mr. Deaver: less terrorism and fear of the unknown.

management style than many of the usu- the product of his environment ... He's probably dreaming about riding his horse

sational, not presidential." If Mr. Reagan is such a product of his environment, he should have taken the trouble to stock his environment with larger, better people than Mr. Deaver and Mr. Regan. Mr. Regan's book is condign punishment for Mr. Regan, punishment for the unseriousness that ne displayed when Mr. Regan; then Treasury secretary, and James Baker, then chief of staff, decided to swap jobs.

Presented with the swap, the president was, writes Mr. Regan, "almost incuri-ous." Mr. Reagan did not know Don Regan when he brought him to Washing-ton in 1980. In a March 11, 1981, note to himself Mr. Regan wrote, "To this day I have never had so much as one minute alone with Ronald Reagan!" When Mr. Regan left the Treasury, that still was true, so the president did not know him much better when the swap occurred.

Mr. Reagan knows Mr. Regan now.

Washington Post Writers Group.

# Astrology in the White House Isn't Funny

gy is shared by many millions of fellow Americans. But the available evidence suggests that this isn't so, and that Mr. Reagan's handlers accurately perceived that the American public would not care for horoscopes in presidential affairs. Shortly before the Donald Regan revelations came out, one of the federal government's own agencies, the National Science Foundation, issued its hiennial report on the state of science, "Science Indicators 1987," which includes an opinion survey on topics in and around sci-

ence, among them attitudes to astrology. As if anticipating Nancy Reagan's reli-ance on astrology, the survey, conducted in 1985, asked 2,005 adults: "Do you sometimes decide to do or not do something because your astrological signs for the day are favorable or unfavorable?"

STEVE McGILL

To Whoever's Listening

New York.

A GLIB view of the matter holds that No was the answer from 88 percent; 8 nies. But given Mr. Reagan's long-stand-percent said yes. The survey also found a ing interest in astrology, and the White declining interest in astrology reports, with 15 percent of those questioned in 1985 saying that they read them daily or often, compared with 21 percent in 1979. Unlike the president, the general public overwhelmingly prefers methods other than astrology for making decisions.

The White House's insistence that astrology was confined to scheduling of speeches and announcements invites skepticism. In his 1965 biography ("Where's the Rest of Me?") Mr. Reagan wrote that he and his wife regularly followed a newspaper astrologer, the late Carroll Righter, "to see what he has to say about people of our respective hirth signs." The scheduling of Mr. Reagan's swearing-in as governor of California after his election in 1966 has been linked to astrological advice -- something he de-

House acknowledgment that he has relied on it for some purposes, what is the basis for confidence that he has not relied on this crackpot pseudoscience for others? The spectacle of astrology in the White House - governing center of the world's greatest scientific and military power is so appalling that it defies understanding and provides grounds for great fright. The easiest response is to laugh it off, and to indulge in wisecracks about civil service ratings for horoscope makers and palm readers and whether Mr. Reagan asked Mikhail Gorbachev for his sign. A contagious good cheer is the hall-mark of this presidency, even where the

# A Day at the Races

#### By Dave Barry

لمكذا من آلاصل

MIAMI - Recently, as a result of some unforesceable beers, I fell behind on my work. Realizing that I needed to get caught up quickly, I decid-ed to employ a time-management tech-nique recommended by efficiency experts everywhere: I went to the horse races. I went with a veteran journalist, Dick Evans, one of the select few people in newspaper history ever to have simultaneously held the positions of Bowling Writer and Religion Editor. Needless to

## did this column, called 'A Stranger Goes MEANWHILE

say, he was known as the Holy Roller. "I

to Church, where I was supposed to go to a different church every Sunday and do a crinque of the sermon," Dick recalls. "Naturally all my critiques came out that it was great."

So we can see that Dick is no fool, which is probably why he is now the Miami Herald's racing writer, which is definitely the best joh in the world. In the middle of the day Dick picks up his briefcase and walks out of the office, looking like a regular civilian on his way to engage in some responsible husiness activity involving his Accounts Payable, only instead he goes to: the track.

The track is a wonderful place. It is at the extreme opposite end of the life-style spectrum from the repressed little world depicted in those glossy magazine adver-tisements for Ralph Lauren clothing, the ones leaturing old-money mega-WASPs in dark natural-fiber suits and slickedback hair sitting on uncomfortable antique furniture and engaging in tradition-al WASP parlor games such as Name That Debenture. At the track, the height of fashion is to wear a shirt on which all the ink marks are the same color. At the track, you can smoke a humon-

gous spit-covered cigar and talk openly to yourself, and nobody notices, Also you can immediately get into an earnest and sincere conversation with anybody, just by pointing to your pro-gram and saying, "Whaddyathinka this (very bad word) horse here?" At the track, of course, naked greed

socially acceptable. At the track, the odds are less than one in 1,650,000 that anybody will

mention Michael Dukakis. And you never know whom you'll meet. At the Calder track outside Miami, Dick introduced me to an elevator operator named Vic Leibowitz, who happens to be the older hrother of singer ve Lawrence. Really. Vic has fond childhood recollections of taking little Steve to singing lessons. "I'd say, come on, you little (very bad word), let's go get some lessons," Vic fondly recalls.

But the best thing about the track is that you can join with thousands of other people in an intense and frenzied mental effort comparable to the Man-

haitan Project, devoted to figuring out what a group of superbly conditioned, painstakingly trained and, above all, thunderingly stupid horses are going to do. And you just never know,

I used to work at a newspaper called The Daily Local News where the pro-fessional handicapper, a man named Francis Mood, once picked a horse to win -- I think it was his Pick of the Day - only this horse threw its rider. leaped the fence, ran into the decora-tive infield lake, got stuck in the mud and drowned. The Pick of the Dayl Drowned! As Francis Mood eloquently put it: "(Very had word) horse."

I can't say I did much better, though I did pick one winning horse, using a scientific theory of handicapping ex-plained to me by a woman named Valer-ie. She was part of the crowd that gathers in the saddling area to examine the horses clocky, looking tor little up offs much as closely, looking for little up-offs such as that a specific horse looks depressed, or appears to have an inflamed furlong, or doesn't have the total recommended

"My whole strategy." Valerie ex-plained, "is if the horse takes a dump on the way out, that's the one."

This made sense, so I watched closely, and sure enough, the No. 3 horse did a No. 2, and I bet him, and he won. The only winner I had that day.

I usually bet by the Name Method For example, in the sixth race I bet the last of my allotted betting money on the 10 horse, a 25-to-1 shot named Medical Convention. My theory was that this horse was probably owned by doctors with absolutely no need for additional money, and therefore it would win, While I was waiting for the race to

start, a man sat down next to me, and it turned out that he had bet \$40 on Medical Convention to win. Thus we had a common interest, which we explored as follows: Him: Oh, the 10, definitely.

Me; Yeah.

Him: No question. The 10. Has to! Has to win, the 10! Definitely!

Me: Yeah. Him: I'm tellin' ya. Definitely. This 10 horse. I'm never gonna work again.

Me: No? Him: Of course I don't work now. Of course, Medical Convention came in about 38th, prompting me to reluctantly leave the track and return to the world Accounts Payable, and my new friend to wander off toward the betting window. already deeply committed to a new horse. I had to envy him, Definitely,

# Singapore Assails U.S. Move on Envoy

By Michael Richardson onal Herald Tribune

SINGAPORE - Reacting to what it calls growing foreign intervention in its internal affairs, Singapore branded as "childish" on Wednesday a U.S. demand for the recall of a Singaporean diplomat based in Washington.

Singapore also rejected as "unwarranted interference" an expression of concern by the Australian vernment over treatment of political detainees in Singapore.

Since April 19, Singaporean authorities have re-arrested eight former detainees and two of their lawyers, Patrick Seong and Francis T. Seow.

The arrests were made under the Internal Security Act, which per-mits detention without trial of suspected subversives.

The eight were re-arrested the day after they issued a statement denying that they were Marxists and claiming that during interrogation they had been forced to make confessions under duress and prolonged psychological pressure.

They were among 22 persons de-tained last year for alleged involvement in a Marxist conspiracy to subvert the government.

Analysts said that the U.S. State Department's rejection Tuesday of the reasons given for the forced

Shift in School Year Under Study in Japan

Japan's Education Ministry is carefully considering whether to change the school year to a September-to-June schedule, which would bring it more in line with other industrialized countries, Patrick L. Smith of the International Herald Tribune reports from Tokyo. A ministry committee recommended in August that the school year be changed. Now a 12-member research committee, representing both education and business, will make a two-year study, including a public opinion

survey. At present, the Japanese school year begins in April, purting the summer right in the middle of it. There is a 40-day summer vaca-tion in July and August and a winter break in December. This system has remained virtually un-changed since the Meiji era, 1868-1912. But a shift to an autumn date would ease student exchanges with other countries and help in the reintegration of the growing number of Japanese students who study abroad and return home. Uotil recently, such

returnees were often segregated in separate schools. The idea has met opposition within the bureaucracy. Oppo-nents in the Education Ministry object to the estimated 100 billion yen (about \$800 million) that the change would cost.

# Manila Reaches Out

To Women Abroad The Philippines is seeking to regulate what is described here as one of its most successful husinesses, the export of women to work as household helpers, hospital and hotel workers and entertainers, Seth Mydans of The New York Times reports from Manila. President Corazon C. Aquino calls them "heroes of our counprotecting their rights. try's economy."

AN INDONESIAN PET FOR REAGAN --- This Komodo dragon, a reptile unchanged since prehistoric times, is being prepared for delivery to the United States as a gift from President Subarto to President Ronald Reagan. This giant lizard is found only on Komodo Island between Sumbawa and Flores islands in the Lesser Sendras about 1,120 miles southeast of Jakarta. The lizard can grow almost 10 feet long, weigh up to 300 pounds, run as fast as a dog and live to 100.

# Millions of Mozambicans Flee Rebels' Brutal War

By James Brooke New York Times Service

RIBAUE, Mozambique When the East African sun sinks below the savannah, workers at a cotton mill here vanish into the elephant grass. They are fleeing the invisible shadow of a brutal rebel group that has reduced this town and this land to dependence on foreign charity for survival.

The rebels belong to the Mozambique National Resistance Movement, or Renamo, an anti-Marrist guerrilla army that, according to a recent State Department report, has killed at least 100,000 people and forced almost a million more to become refugees.

Flecing the insurgency, millions of Mozambicans have won some measure of security in an archipelago of government-held cities and towns

o dragent i reptile undragente ned vezive 2x a gift inm freis und sezive curbent of Jahar h 120 million and and a drag and freish "We sleep without sleeping," said Amilcar Xavier Veloso, the mill's manager, who no longer dares to sleep in company housing. "We hear a shot and we're off and running.

# **IN BRIEF**

#### Liver Disease Virus Isolated

EMERYVILLE, California (NYT) - Scientists at a California biotechnology company reported Tuesday that they had isolated an elusive virus that causes liver disease in thousands of people who undergo blood transfusions each year.

The scientists, at the Chiron Corp., said their work should allow them to develop a test that could be used to screen donated blood and greatly reduce the chance of contamination. The work, which used techniques of genetic manipulation to study the genetic code of the virus, could also lead to a vaccine against the disease, hepatitis non-A, non-B. At a news conference at corporate headquarters here, Chiroo's chair-

man, William J. Rutter, said the company hoped to have a screening test for antibodies to the virus ready for clinical trials by the end of the year.

#### A Treatment for Unpigmented Skin

WASHINGTON (UPI) - Adapting a technique used to make skin grafts for burn patients, scientists have found a better way to treat vitiligo, or patches of unpigmented skin.

At a dermatology conference here, researchers from the University of Texas Medical Branch in Galveston described the technique for restoring pigment production to the colorless patches of skin that form when a patient's melanocytes - or pigment-producing cells - are destroyed. The scientists, led by Miriam Brysk and Dr. Richard Newton, attributed the success to the special nutrient mix, called MCB-153, in which patients' cells were cultured.

#### A Vaccine Disappointment

NEW YORK (NYT) - Long-awaited tests of two relatively new vaccines against pertussis, or whooping cough, have shown that they are quite safe but not as effective as experts had hoped. Disappointed researchers said more studies would be needed. Moreover, surprising

aspects of the results have forced scientists to reassess some assumptions about how these and other vaccines against bacterial diseases work. The new vaccine study, carried out in Sweden and reported in The Lancet, is the largest and most scientifically rigorous trial of whooping cough vaccines in recent years. It tested two made in Japan — one already

cough vaccines in recent years. It tested two made in Japan — one aready widely used there, the other experimental — in about 4,000 children. Earlier, smaller studies indicated that the newer Japanese vaccines were as effective as the ones used for decades in the United States and many other countries against pertussis, which is characterized by sudden attacks of coughing, ending in prolonged whooping respirations.

#### Fatigue Linked to Mental Illness

WASHINGTON (WP) — More than half of the people who said they suffered from chronic fatigue actually had undiagnosed mental illness, researchers from the University of Connecticut Health Center in Farmington reported.

For some time, researchers have suspected that Epstein-Barr virus, which causes mononucleosis, was the primary cause of chronic fatigue, the fourth most common complaint voiced by patients seeing an internists and the seventh most common among patients seeing a family doctor.

The three physicians conducting the Connecticut study found that only 15 percent of their 100 subjects showed any signs of EBV infection. All the patients with signs of EBV infection also suffered a mental illness. "We found no patients considered ill just because of Epstein-Barr," said research leader Dr. Peter Manu. Problems in diagnosis may be due to the fact that patients complaining of chronic exhaustion are "mable to vocalize their feelings of depression or anxiety," researchers reported.

#### **Chewing Gum and Cavities**

WASHINGTON (WP) --- Conventional wisdom says chewing sugar-less gum is better at preventing cavities than chewing gum containing

But a new study at the University of lowa College of Dentistry concludes that sugared gum, if chewed long enough, has the same effect as sugarless gum in neutralizing the bacteria-created acids that cause tooth decay,

Without chewing gum after a meal, the researchers found, acid remained at levels high enough to cause tooth decay. The key, Wefel said, is to chew the gum for at least 20 minutes,

#### **A New Generation** Of Bridge Design Cable-stayed bridges support

their roadways with cables running directly from the towers. The cables must withstand both "dead load," the weight of the roedway, and "live load," the dynamically varying forces of traffic, wind and vibration. Some experts assert that the continual stressing and relaxing of these cables has made them

unexpectedly vulnerable

By contrast, cable-stay bridges in the United States stay bridges use cables that fan and abroad. "We take all the predownward directly from the cautions that are necessary.

War II, when West German engineers began using cable-stayed hridges to replace the Rhine crossings destroyed by bombing, they have been constructed wherever engineers needed to support a span of about 700 to 2,200 feet (about 200 to 650 meters). For longer spans, suspension bridges are still better, mainly because cable-stayed

bridges require taller towers. Mr. Watson and a colleague, Da-vid Stafford, have published their assertions in Civil Engineering, a professional journal of the American Society of Civil Engineers. Most of the world's cable-stayed bridges, they wrote, "are in serious danger because corrosion is attack-

The Old Design

Because they are less expensive to build, cable-stayed bridges have largely replaced the traditional ion bridge, below, which uses many small vertical cables attached to primary cables hanging in an arc between the towers.

American bridge designers, how-ever, accuse Mr. Watson and other critics of exaggerating the prob-kems. They say that cable-stand by the design of the des lems. They say that cable-stayed be the design of choice for all but cables fail, and it makes repairs

The federal official responsible for bridge engineering, Walter Pog-doiny of the Federal Highway Administration, said that European rich Finsterwalder, supports the as-sertions of Mr. Walson and Mr. an especially short-lived method of corrosion protection that was never adopted for the American bridges.

"Tm unaware of any corrosion problem with cable-stayed bridges," in the U.S.," Mr. Podolny said, "Certainly what Watson has said is not untrue, but in my opinion he's, come on too dramatically."

Corrosion protection systems, vary. On most recent cable-stayed, bridges, the cables are surrounded, by cament grouting and enclosed in polyethelene plastic pipe.

The survey by Mr. Watson and Mr. Stafford has found many instances, even on recent American. bridges, of cracked protective pipes and worn tape. Because of the and worn they argue, it is impossible to tell whether the cables have - of begun to corrode.

The chemical processes of corrors sion are closely interwoven with the sion are crosery merwoven with the physical processes of metal fatignes a weakening of metal that develops from repeated stress. The connect tion is poorly understood, though. "Fatigue is really one of these;

unsolved problems of classicale physics, along with turbulence, said Francis C. Moon, of Cornelly University.

One element of fatigue is the rowth of microscopic cracks with in the metal. The cracks can clone gate and join to form larger, visible; cracks, and they can also provider sites for corrosion by water, salt of other chemicals.

The Transportation Research Board, an arm of the National Academy of Sciences in Washing too, has commissioned a study intended to provide guidelines for calculating the needed strength of cables on cable-stayed bridges. Jolyon A. Gill of Acer Freeman Fox,

an engineering firm in London, who is heading the study, said that he considered some of the criticism of cable-stayed bridges to be "alarmist." The design has generally proved sound, he said.

For now, though, he said, no. consistent standards exist, especially when it comes to predicting the effects of metal fatigue

# HOTELS+RESORTS present the Getaway/ Giveaway

# for two at a five-star Marriott Hotel!

Last year, lucky people from the world over - Baghdad to Budapest, Sweden, Denmark, France and Spain - each spent seven free nights with their guest at a Marriott Hotel in such places as Paris, Cairo, Vienna and Amsterdam.

They were all big winners in last April's GETAWAY/ . GIVEAWAY. And this year, it could be your turn to win!

# "Lucky You!"

Every tenth new subscriber to The International Herald Tribune will win a free week for two - seven huturious nights - in a 5-star Marriott Hotel. So if you complete and mail the Official Entry/Order Ticket below and your name is drawn on June 10; a representative from The International Herald Tribune will call you and say "You're a lucky winner!"

You'll have your pick of Marriott's lavish accommodations - for you and your guest - in eight prime metropolitan locations; Amman, Amsterdam, Athens, Cairo, Jeddah, Paris, Riyadh and Vienna.

Picture yourself at the Cairo Marriott - a palace on the Nile; at the Marriott Prince De Galles on Avenue George V in Paris; or visiting Vienna or Athens in five-star style. Imagine the look of delight when you invite your companion for a free week at one of these Marriott hotels.

Every Marriott is fashioned to blend with the culture of which it is a part and each acts as a gateway to the city and country beyond. And all Marriott hotels give service that leaves you feeling cared for and relaxed.

#### Everyone's a winner

You have a one-in-ten chance to win a free week in a Marriott 5-star hou nave a one-in-end of the odds. And the more people who subscribe, the more chances you have to win! But even if your ticket is not the pick of the draw, you'll win ten times over with a subscription to the Trib. And you will always be a winner when you stay at a Marriott.

The International Herald Tribune:

#### The Best Value in Print ...

The Dest value will full .... The International Herald Tribune gives you accurate, on-the spot coverage of what's happening in the world every day, six days a week. Plus the best articles and editorials from its two parent newspapers - the New York Times and the Washington Post. And its quality is marched only by its variety. News... Business & Finance... Opinion... Travel... Pashion... Weekend... Books... Sports... Ans & Leisure Over 40 features in less than 20 pages.

# INTERNATIONAL MANAGER For Expatriates, Equal Pay Abroad, If Not Back Home

#### By SHERRY BUCHANAN

International Herold Tribune TONDON - Why should a Filipino manager working in Lagos earn less than an American colleague with the same job, same title, same seniority, in the same city? Managing a multinational team is a difficult enough job

Managing a multinational team is a difficult chough job as it is without money grudges getting in the way. Tension, frustration and anger can build up when people of the same rank working for the same management team do not have the same standard of living, simply because one is from the Philippines, where salary levels are relatively log, and one from Philippines, where salary levels are relatively low, and one from the United States, where they are relatively high.

Some European multinational companies that employ large numbers of expatriates, like Royal Dutch/Shell Group, Unilever and British Petroleum Co.,

find that it is most important to give peers in the same location a similar standard of living no matter what their nationality. For instance, workers from Toronto, Paris, Singapore and Manila all receive the same local pay pack-age in Oman, although the I part of the salary paid in their home countries may differ widely.

British Petroleum introduced a new expatriate pay system two years ago. Alan Chesters, BP's manager of international personnel, said, "Under the old system, there were huge differences between an American and a New Zealander, who were peers and were working in a third country." Under the new system, "all expatriate peers have the same money to spend in Nigeria, for example."

Fred Piker, director of international compensation consulting projects at Organization Resources Counselors Inc. in New York, said, "It's a good way to remove potential discontent and upset on the part of expatriates of different nationalities as long as the company clearly keeps a separately identified home base salary."

These expatriate pay systems differ among multinationals and are costly and complex to administer. But, the companies argue, they are worth it because they do not inhibit people from freely accepting transfers.

. "The prime consideration is international mobility, and this underlies the system," said Mr. Beaton of Shell. A British-Dutch company, Shell bas 4,500 expatriate managers, 25 percent of whom are neither British nor Dutch.

MPERIAL CHEMICAL Industries PLC's new expatriate pay package shows less concern about putting colleagues of different nationalities on the same footing than in giving managers incentives to move from countries with higher salary levels to countries with lower levels. Examples would be moving Americans to London, or Swiss managers to Spain.

For many companies, depending on the job location and the remuneration system used, 55 percent to 75 percent of the income for expatriate peers is the same.

"The day-to-day spending on goods and services is common among expatriate peers in the same location so that it doesn't matter whether they are Swiss or Filipino," says David Beaton, head of expatriate compensation and development for Shell International in London. "Expatriate peers also have common incentive pay and hardship pay expressed as a percentage of a Dutch select Dutch salary base.

"But there is an element of their expatriate pay package linked to their home countries. That's the bit out of which the expatriate meets average home country commitments, which include retirement benefit plans, long-term savings plans and home-country bousing."

Cumonov Rotos

'The prime consideration is international mobility,' one manager said.

At £822 Million Reuters LONDON — Royal Dutch/-Shell Group said Wednesday that its profit rose 18 percent in the first quarter, to £822 million (\$1.54 bil-lion) from £694 million a year earli-er, despite a fall in crude oil prices. The bicker scriptor for the Bei The higher earnings for the British/Dutch oil giant, compiled on an historic cost basis, came on a 5.1

Climbs

By 18%

Quarterly Profit

East Bloc Car Makers Turn to West percent fall in revenue, to £13.63 billion from £14.37 billion in the year-earlier period. On a replacement-cost basis, which excluded the lower value of

the company's inventories of crude, profit rose 49.5 percent, to £900 morning, several acres of an old military airfield west of this city million from £602 million. Analysts say that judging earnings on this measure provides a clearer pieture of the company's operations.

The earnings were largely as ex-pected, and shares of Shell Transfair, with hot charcoal grills waftport & Trading Co., the oil coning the scent of browning kielbasa, potential buyers browse among two Japanese models. Nor is there dumpy little Polski Fiats, new Mer-instant delivery; as in other Eastern cern's British arm, initially rose slightly. Reflecting an overall de-cline in British stock prices, however, the shares closed at 1,040 pence on the London Stock Exchange,

down 22.5 pence. Oil analysts at the London brokerage Smith New Court had forecast historical profit of £830 milbon and replacement-cost earnings at £910 million.

"Once again Shell has shown us what it can do despite a fall in the price of crude," said one London analyst. "I think there will be a few brokers upgrading their full-year profit forecasts slightly on the back of this result."

Jeremy Elden, an oil analyst at Phillips & Drew, noted that the historical profit of £822 million included a gain of £106 million from the sale of a property in Hong The Polish Kong, and a lower exchange rate Fiat 126 loss of £24 million from £96 million the year before.

The company said exploration and production earnings fell 22 percent, to £370 million, from the first quarter of 1987, mainly due to lower crude oil prices, reduced natural gas sales and the strengthening of the British pound against the dollar. Oil prices are denominated in dollars, so translation of these carnings into sterling depressed

profit keting earnings, however, rose 11 percent to £292 million. Helped by

New York Times Service NEW YORK - If the first quarter is any indication, this should be a very good year for U.S. commercial banking.

The nation's higgest banks rebounded with Manufacturing, marine and mar-bealthy earnings in the quarter, their financial results indicate, after suffering in 1987 when they established huge reserves a

one-time gain was excluded.

The lone exception was First Republicbank Corp., where earnings fell 46 percent. It was tinue to show the benefits from cost-control created last year from two troubled Dallas banking organizations and received a \$1 billion infusion from the Federal Deposit Insurance Corp. Last month, Albert Casey, former chair-dle, an analyst with PaineWebber Inc. "That

ny's Volkswagen and Japan's Nissan are bidding to supply a plant to make the motor for the Favorit. What sparked all this activity?

In some countries it was clearly a desire, in line with government efforts, to increase the quantity of consumer goods generally, for more cars at more affordable prices.

"In the 1950s, with the start of motorization, the philosophy was that every worker should have a car, cheap and robust, of course, but a car," said Radim Roudny, technical director of the automotive industry group that makes the Skoda.

Life here has shown that people choose their car like their clothes." he said. "So we must not only finish the process of motorization, we also need different modifications and types so that each person can choose the car he wants."

This means that a Western autoprice of about \$4,000 in the United maker must have a relatively sure market niche for the product be fore signing on the dotted line to a lot of car for your moncy, which is why they're quite popular here. "But having said that, they're me-The Yugo got off to a good start produce a car here. Moreover, large-scale expansion

of the industry is hamstrung by chronically uncertain supplies of such basic materials as steel and plastics, Components such as ignition systems and generators are produced in low-volume, costly lots; deliveries are uncertain.

To overcome these hurdles Eastern Bloc automakers are scram bling to develop joint ventures with partners from the East and West, under which the Westerners would supply parts, bring in the new technology needed and supply the capital to pay for new factories.

Most East hloc governments have set their sights relatively low. Adding up the capacity coming on line throughout the region, one Western auto executive said, will By contrast, he noted, a single

France, turned out roughly 515,000

Helio Smidt, president of Varig SA, the private-sector Brazilian carrier that has become the largest Latin American airline.

# **Brazil's Varig: Steady in a Sea of Turbulence**

By Alan Riding

New York Times Service RIO DE JANEIRO — Given the troubles of airlines across Latin America, Hélio Smidt seems remarkably confident that Varig SA will emerge unscathed from the inflation, recession and labor unrest buffeting the region.

"In Latin America, almost all state and national flag carriers are in the red," the 63year-old president of the Brazilian flag airline said in an interview, "Varig is different." In the 61 years since it was founded, Varig has become the largest airline in Latin Ameri-ca and one of the 20 biggest carriers in the world. It has a reputation for safety, service and profitability,

"A major reason for its success is that it's a private company," said Mr. Smidt, "Another is that it has always worked like an army and still does -- with a great deal of discipline.

Nonetheless, the difficulties of running an airline in Latin America are growing. In mid-April. for example, Aeromexico filed for bankruptcy after years of losses and a strike that cost it about \$7 million. The Mexican government, which owns the airline, was praised by analysts for its resolve to make the country's air transport system more efficient by letting the flag carrier go out of business.

Also in April, a private operator. Transhrasil SA, was taken over by the Brazilian gov-ernment because it could no longer cover its debts. Several of Laun America's government-owned airlines, such as Aeroperu and Brazil's Vasp SA, continue to need regular infusions of capital to avoid collapse,

Several weeks before, the state-owned Aerolineas Argentinas sold 40 percent of its stock Mr. Smidt seid. to Scandinavian Airlines System, which is to

Even for Varig, the traditional exception to most airline rules in Latin America, 1987 was a difficult year. On revenue of \$1.3 billion, Varig reported a loss of \$123 million, the result of a \$128.8-million revaluation of its ven-denominated debt.

Without this exchange loss, the company broke even last year, in contrast to net profit of \$126.7 million in 1986, \$65.4 million in 1985 and \$67.5 million in 1984. Because Varig considers the 1987 results to be only a bookkeeping loss, it has decided to continue paying dividends, using accumulated profits.

Mr. Smidt. raising his voice above the roar of planes landing at the Santos Dumont air-port near Rio de Janeiro, declared that "1988 should be better."

"We're finding ways of cutting costs," he said. "We've got three new Boeing 747s coming into operation, and we've signed an agree-ment with Japan Airlines for an extra Tokyo flight,"

With most of Latin America caught in a deep recession, the idea of opening routes and acquiring aircraft is daring. Last year, Varig carried slightly fewer passengers than in 1986, and upple-digit inflation in Argentina, Mexico and Peru as well as Brazil does not augur well.

Yet Varig, Mr. Smidt insisted, is different. For example, it steadfastly ignored the recent fads of slashing fares and offering frequentflier deals, believing that a company of its size could never beat the major American and European airlines at those games. "I think they're now regretting they got into them,"

Still more important, Varig is supported by

provide assistance in running the South American carrier. a mystique and a corporate structure that other Brazilian corporations do not have. The airline was founded in 1927 by a German immigrant, Otto Ernst Mayer, who stepped down when Brazil declared war on Germany in 1941. He chose his first employ-ee, Ruben Berta, as his successor, and Mr. Berta presided over the company's expansion

in the next 25 years. In 1945, Mr. Berta convinced the stockholders of the company to donate their shares to a foundation, controlled by the airline's employees. The foundation now owns 79 percent of the common shares.

Varig's rapid growth over the past 15 years has required outside financing, which has raised the company's foreign debt to \$1.1 billion. But even with debt-servicing costs of about \$257 million this year, its credit rating nains good.

Varig is Brazil's flag carrier abroad, giving it a big advantage over the country's other major airlines, Transbrasil, which is now in government hands, and Vasp, which is owned by the government of the state of São Paulo. As the flag carrier, Varig has a regular income in hard currencies.

But even with a fleet of 84 aircraft and offices in 64 countries, Varig recognizes that it is a small player among airlines. "Brazil has 18 million airline passengers a year against 400 million in the United States," Mr. Smidt said. "And when we fly to, say, Frankfurt, we're not just competing with West Germany but with all of Europe because a buge regional market feeds into Frankfurt,"

In South America, Varig has tried the same strategy, using its numerous flights to neighboring countries as a way of persuading passengers to connect in Rio de Janeiro for flights to the United States and Europe.

# **BANKS:** A Healthy Start

(Continued from first finance page) to pay off. Restructuring moves dismissal of employees - were in evidence at Manufacturers Hanover Corp., First Interstate Bancorp and Chemical. First-quarter penses at Chemical, for instance, were 10 percent lower than in lastyear's fourth quarter.

At some banks, the carnings were buoyed by one-time gains. Chase, the second-largest U.S. banking company, saw its net income swelled by about \$160 million in one-time gains: from the sale of a securities information sub-sidiary, the sale of a branch-office. building in Paris and from federal tax benefits from its developingcountry loan reserves.

Perhaps the best performer was Wells Fargo & Co., which reported a 58 percent gain in net income due almost entirely to improve ments in its core banking business es. "It's a continuation of tremen dous fundamentals at Wells Fargo," said J. Richard Frederick of Montgomery Securities They've had tremendous control over costs and a good pricing envir ronment."

The earnings at many banks were aided by a strong performance in the bank's trading accounts, especially at J.P. Morgan. Banks are now beginning to trade more financial instruments an they try to become global invest ment bankers. And the banks have expanded beyond their traditional trading to handle many differe

instruments, commodities and for cign exchange. "A lot of banks have made a ke

of money on foreign exchange, said Mr. Salem of Prudentias Bache. "Several banks had record high total trading gains, and trad-ing profits were high also in foreign exchange."

# LTV to Sell Plant **Pipe-Making Unit**

CLEVELAND - LTV Corp said Wednesday that it had signed a contract to sell its steel plant in Warren; Ohio, and its Republic Drainage Products Co. subsidiary to Renco Group Inc., which is pre-vately held. No terms were given. LTV said the sale was expected.

to be complete by Jane 30, subject to court approval. LTV is operating under Chapter 11 of the Federal-

Bankruptcy Act. The Warren plant makes flaf-rolled steel products and has a ca-pacity of 1.5 million short tons. Drainage Products makes corrugated galvanized steel drainage pipes. LTV said it will retain its coke plant in Warren.

H

# business traveler in Asia.

Edited and written by senior IHT journalist Report K. McCabe, who has known Asia well for 30 who speak the local languages well. You couldn't have better sources.

Even the most experienced business travelers to Asia will want to take this remarkable guide with there when they go back to the region.

 Asia's key business capitals and how they work. The latest on communications, transportation, government offices and diplomatic contacts.

How to avoid costly mistakes: technical, cultural, and personal.

..... Entertaining clients: Where to go, what to order -and what to avoid.

• The best hotels (and Asia's are the world's greatest).

• The China market: What to look for in four key cities.

Key cities.
 Bali and other great spots for weekending. Also sports, shopping, and medical aid information. If you are planning a business trip to Asia or know someone who is, get this latest guide from the International Heraki Tribune, the newspaper that's been printing this by satellite in Asia since 1980.
 The Guide covers locities, including four in the People's Republic of China: Bangkok; Beijing, Brunei, Canton, Hong Kong, Jakarta, Kuala Lumpur, Macau, Manila, Osaka, Seoul, Shenzhen, Singapore, Taipei, Tokyo.
 Ished with A & C Black (London) and Passnort Books (Chicago) Augulable.

Published with A & C Black (London) and Passport Books (Chicago). Available in bookstores and directly from the International Herald Tribune. Use order form below. (186 pages, paperback, with orientation maps.)

#### FRANCO: A Biography

By J. Fusi. 202 pages. \$25. Harper & Row, Publishers Inc., 10 East 53d Street, New York, N. Y. 10022.

#### THE FRANCO REGIME, 1936-75

By Stanley G. Payne. 677 pages. \$30. University of Wisconsin Press, 114 N. Murray Street, Madison, Wis. 53715.

# Reviewed by Edwin M. Yoder Jr.

THE Spanish Civil War of 1936-39 so deep-L ly scarred the soul of an age that it is small wonder that its emotional legacy is, like

Charles II, a long time a dying. Yet a dying it is, as any visitor to the vibrant post-Franco Spain discovers. These two books are among the signs that the scholarly consid-eration of Francisco Franco's 40-year reign is

scrutiny of history. Both anthors — Juan Pablo Fusi is director of the Spanish National Library, Stanley Payne a professor of history at the University. of Wisconsin - carry the story year by year through the Franco era, Fusi lacomcally, Payne at exhaustive length, but both experily. The emerging speciacle is paradoxical. The man whose ascendancy stretched from 1936 to his quiet if painful death in bed 13 years ago (with the mummified arm of Saint Teresa of Avila at his side) was physically small and, to most eyes, unprepossessing. Franco was a sol-dier with strong but simple ideas — a Bona-partist, Payne suggests, without the genius of Bonaparte. He ruled a brilliant and volatile Bonaparte. He ruled a brilliant and volatile (and changing) society by means of traditional-ist social convictions (not ideology) and by a signal talent for agile accommodation. Even more than Louis XIV might Franco have boasted, "I am the state." His "organic Catho-lic democracy," as he liked to call *it*, was among the more dorable entities of this or any century. Yet it was also a system of jerry-built institutions that largely collapsed at his death. From his consolidation of power amid the ruins of civil war in 1939 to his dying day, Franco claimed that he had rescued Spain from its familiar demons — "the spirit of

from its familiar demons - "the spirit of anarchy, carping mumal criticism, lack of fel-low-feeling, extremism, and internecine ha-

Britain, which used to share

tred." as he catalogued these faults in 1965. These ancient Spanish vulnerabilities (as Franco saw them) were preyed upon by sinister external influences. There was communism, of course; and as late as 1943, Franco was offer-ing to send a million volunteers to help defend Berlin in the event of a Soviet breakthrough

Equally, there was the alleged international Masonic conspiracy, which so obsessed Franco that he even wrote and published a book about its machinations under an assumed name. In any case, he alone claimed to be able to steer Spain between the treacherous whirlpools of secular modernism and liberal democracy and Marxist tyranny.

Thus Franco as Franco saw him. But the great question for historians is the durability of the "ism" he founded. Fusi and Payne largely-agree about this. Franco, a general at 33, had distinguished himself as a military man. He was prodent and cautious and, as his shifting international associations showed, flexible and agile. Far from soft, he was a man of cordiality, and courtesy, impretentious, cautious and sverse to violence. By even conservative estimates, the regime executed 28,000 to 30,000 political enemies in the immediate post-Civil War years. Yet as Fusi puts it, "Franco, who was not a violent man by tempersment, and plied the policy of repression dispassional ly . . as if fulfilling a duty." He was not g

hater. Nonetheless, Francoism suffered first to last from what Fusi calls "a kind of chronic sick from what Fusi calls "a kind of chronic sick-ness of conscience about the legitimary of ity origins." Without the carly and of Hiller and: Mussolini, Franco's July 18, 1936, revolt prob ably could not have succeeded — it was Ger-man and Italian planes that ferried his annies, from Spanish Morocco to the mainland fit-launch his crusade against the collapsing and divided Second Republic. Well into the Workfr War II years Franco pursued an insavory courtship of the fascist powers: a bindiry divided War II years Franco pursued an insavory courtship of the fascist powers: a history that saw Spain excluded from the United Nations after its founding. This ostracism began to fade only with the onset of Cold War, when Fran-co's self-advertised status as the aboriginal anti-communist ("sentinel of the West," in the phrase of a fawning biography) took on a new pertinence. The American alliance, a new order cordat with the church and eventual UN mem-bership followed.

bership followed. Franco's relationship with the deposite Spanish monarchy was abrasive at best, small help in legitimizing his claims. In his Rome. Manifesto at the end of World War II, Dist. Juan, the Bourbon pretender, condemned Francoism (a bit excessively) as "inspired firldi-its incention he the totalitation and the state its inception by the totalitarian systems of the Axis powers" Yet Franco protested, with some justice, that he had never been a baseful

The judgments of Franco and Francoism that emerge in both these books are incisive but, measured. Like most revisionist historians, recent chroniclers of the Franco years are been, ning to detect continuities obscured by the bitter polemics and resentments of the Candillo's lifetime. (**3**)

The Brewers lost, 9-3, on the road Tuesday night, the victim of another fine outing by Minnesota left-hander Frank Viola, who saw on April 22. his club-record scoreless streak end at 30% imaings. The Athletics, meanwhile, lost to Detroit, ending the longest winning streak since the wanchise moved from Philadelphia after the 1954 season.

Last year, Milwankee won 13 games to start the season but soon thereafter lost 12 straight in fall out of the Eastern Division race. "It's the end of another streak,"

said Manager Tom Trebelhorn. "But the one we started tonight is going to be shorter." Said Bill Wegman, the losing pitcher: "We've been playing good baseball. To-night was just a mishap." Viola's bid for a third straight

shutout ended with two ont in the eighth inning when Robin Yount delivered a run-scoring single to center and Glenn Braggs hit a home run. Viola had shut out Boston in his last two starts.

Viola (5-1) broke Jim Kaar's 22year-old franchise record of 28 straight soorcless innings. "It was a lot of fun while it lasted," he said. Viola gave up six hits, walked three and struck out seven in 713 innings. Kirby Puckett went 4-for-4 with 1. 12 34

a homer, and Kent Hrbek and Gary Gaetti also hit home runs for Minnesota. Tigers 8, Athletics 2: In Oakland

California, the Athletics' winning streak was the longest in the major leagues since the 1977 Kansas City Royals won 16 straight. The league

record is 19 (the 1906 White Sox career-high four hits and Pete Inca-and 1947 Yankees), while the 1916 viglia and Larry Parrish hit home New York Giants hold the major runs in highlight a 13-hit attack beague mark of 26. Detroit is the that huried Baltimore. Cardinats 5, Padres 1: In the Na-

tional League, in St. Louis, pinch-hitter Duane Walker snapped a first team to beat Oakland since sixth-inning tie with a two-run sin-Chicago did so, 7-5, in 10 innings gle to lift the Cardinals in their ninth victory in 13 games.

Winner Walt Terrell allowed just Pirates 6, Giants 2: In Pittsfour hits in his seven innings, and Larry Herndon and Luis Salazar burgh, R.J. Reynolds, Jose Lind and Barry Bonds drove in two runs apiece as the Pirates won for the stormered. Making just his third start after missing spring training with an ankle injury, Terrell held the big three in Oakland's lineup — 11th time in 14 home games. Pittsburgh, 20-11, didn't win its 20th game last season until May 23. Vin-Jose Canseco, Mark McGwire and cente Palacios, Barry Jones and Jim Dave Parker - to a collective 0- Gott combined on a four-hitter, for-7. The A's also made five errors with Jones and Gott pitching two that led to three unearned runs. "It was a good way to lose," said Manager Tony La Russa. "We lost Kirk Gibson homered with two scoreless innings each.

outs in the 14th in give Los Angeles Yankees 17, White sox 3: In New its 10th victory in its last 13 road York, Don Mattingly capped a sevgames. With two outs in the ninth en-run third with his first home run and Vance Law on first after an of the season as the Yankees broke infield single, Shawon Dunston sent a drive over Gibson's head in a three-game losing streak by rout-ing Chicago. New York tied its sealeft for a double to send the game son high with 20 hits; every starter into extra innings.

had at least one. Royals 7, Red Sox 2: In Kansas Reds 10, Phillies 1: In Philadelphia, Bo Diaz highlighted a five-run City, Missouri, Bo Jackson went 4-for-5 to key an 18-hit attack that first with a two-run home run that helped Tom Browning win his first game after five on decisions. Brownhelped the Royals end a six-game losing streak. Frank White's RBI ing yielded six hits, struck out five single in the fifth helped knock ont and walked two in burling his first Bruce Hurst, who lost his first game complete game of the season.

of the year after winning five. Indians 7, Angels 1: In Anaheim, California, Pat Tabler had four hits, Expos 6, Braves 1: In Atlanta, Hubie Brooks drove in three runs including a two-run homer, to back with a two-run single and a bomer, and Bryn Smith ran his lifetime Scott Bailes's four-hitter, Bailes struck out three and walked none. Los Angeles Times Servic LOS ANGELES - The National Basketball Association playoffs are lay-it-up-and-die time. Tempers are getting warm - someone is about in prevent an easy hoop the, uh, decisive way.

How come? For the best possible reason. As much as the league would like us to believe that this is strange, deviant, outlaw action, it is, in reality, only an extension of behavior that is widely condoned.

A few, such as the battlers amed below, may be habitually pointed out, but the real problem is that everyone cheats, grabs, holds, bumps and pushes a little. Io a nation that fudges on its expense accounts, are we to be surprised

that we came up with Ivan Boesky? The We're No Angels All-Stars are Bill Laimbeer and Rick Mahorn of Detroit, Maurice Lucas of Portland, Xavier McDaniel of Seattle Mark Jackson, who shattered the and Danny Ainge of Boston. When league's rookie assist record and

trouble starts, you don't have to look far to find one of them. helped lead the New York Knicks to their first playoff appearance since But they're just the tip of the 1984, on Tuesday was named the National Basketball Association's missile, a group of guys whose enthusiasm runs amok every now and then. All are beroes in their commu nities (no mean trick for Lucas, who has played in eight). The problem is

up 868 assists, 178 more than the not a band of baddies you can love rookie mark set by Oscar Robertson to hate, but a system that has proin 1961; Jackson was also third in duced what is sometimes referred to the league with 10.6 assists per game as "the unwritten rule:" Thou shalt and sixth with 2.5 steals.

allow no lay-ups in the playoffs. It is especially enforced in the He received 77 of 80 votes from a national panel of sports writers and later games of series, when the conbroadcasters. Greg Anderson of San Antonio, Winston Garland of sequences become clear and players soaring for the basket start suddenly Golden State and Kenny Smith of dropping off the radar screens. Sacramento received one vote each. Remember Kevin McHale pull-

 Suns Name Fitzsimmons ing down Kurt Rambis in 1984 and turning around the Los Angeles-The Phoenix Suns named Cotton Boston finals? How about Ainge's Fitzsimmons head coach Tuesday Fitzsimmons beau count a guard airborne wipcout or souncy would and former NBA all-star guard airborne wipcout or souncy would Paul Westphal his assistant, United crief last spring in Milwaukee? And Laimbeer's blind-side of Larry Bird a week later?

But if the flying tackle at the The moves came a week after the team fired first-year coach John hoop is the most dramatic way of Wetzel and assistant Herb Brown announcing the onset of basketball following a 28-54 season, the fran- by other means, there is also the less celebrated but constant war on chise's worst since the 1968-69 exthe floor. You don't have to be a pansion team went 16-66. famous thug to take part. Fitzsimmons, 56, coached Phoe-

nix from 1970-72 and later guided Atlanta, the Buffalo Braves, the all-defense candidates, was asked Kansas City Kings and San Antonio before returning to the Suns last about the league's grabbers. "You can probably put me at the top of that list," he said. year as player personnel director.

down, "That was serious, That's part of the playoffs." The art of physical intimidation was well entrenched by the time he

arrived, but few have traded on it like Maurice Lucas, who frowns during the national anthem and then proceeds to get really angry.

Lucas made his reputation in the American Basketball Association, with a knockout of the enormous Artis Gilmore. Lucas is then said in have stood over his fallen adversary and taunted him.

A key point in this: One man's thug is another man's competitor. The Celtics have been as physical as anyone in the game. Dave Cowens, beloved in Boston for his "hustle." was once called for what he considered a cheap offensive fonl on Houston's Mike Newlin, a

celebrated flopper. On the next play, the 6-9, 230pound Cowens took a running start and knocked Newlin silly. Then Cowens reportedly turned to referee Richie Powers and declared,

"Now that's a foul." Mahorn's great gift to modern warfare is the pick that stuns. He

Glen Wesley, another rookie, had three assists.

#### Flyers Dismiss Keenan

The Philadelphia Flyers, unable to resolve contract differences, fired Coach Mike Keenan oo Wednesday, The Associated Press reported. Keenan had demanded a clause that would let him leave for a general manager's job if one were offered elsewhere in the National Hockey League.

Keenan had a four-year record of 190-102-28; his winning percentage of .638 puts him atop all active NHL coaches. He led the Flyers to the Stanley Cup finals twice, and to the too of the Patrick Division three times. In 1987-88, Philadelphia finished third in the division and was eliminated from the playoffs by Washington in the first round.

# **49ers**, Dolphins **Slated for London**

The Associated Press

NEW YORK - The San Francisco 49ers and Miami Dolphins will meet in a National Football League exhibition game July 31 at Wembley Stadium in London, it was announced Wednesday.

The game is one of three exhibitions to be played outside the United States this year. Chicago and Minnesota will meet in Göteborg, Sweden, on Aug. 14 and the New York Jets will meet Cleveland in Montreal Ang. 18.

has retired the composition a heavy sea. "Yes, I do," he says. "With players like Larry Bird), where the officials are going to give bim that you have to. # **ART BUCHWALD** Let's Hear It for Meese

WASHINGTON — Double-day came to the door holding a donation can in his hand. "Would He must be saved at all costs." you like to give to the 'Save Ed Meese Foundation"?" be asked me.

"I'm not sure," I said. "Why are you collecting money for Ed Meese? I thought you were a Democrat."

"I am a Democrat," he said. "That's why I want to save Ed Meese. He is a

fine person and should terminal attorney general right through the elections." should remain "But what about the accu-sations and in-

ocendoes that keep floating over Meese's head?" Buchwald

"They are lies, all lies. The 'Save Ed Meese Foundation' has proof that he is innocent of all high crimes and misdemeanors. Any conflicts of interest he may have been involved in were caused by his ignorance of the law."

'If you will forgive me, Doubleday, I smell a rat. You and your Democratic friends are trying to save Ed Meese because you need him to kick around during the election campaign." Doubleday raised his hand in

protest. "You have never been farther from the truth. Our organization has only one purpose - to fight a miscarriage of justice. Ed

#### **Degas Bronze Is Sold** For Record \$10 Million

United Press International

NEW YORK - An unidentified buyer paid \$10.12 million for a Degas bronze of a ballet dancer, a world auction record price for a sculpture of any kind. "La Petite Danseuse de Quatorze Ans" was purchased by an unidentified European at a sale of French Impressionist and modern paintings and sculpture at Sotheby's.

The Degas ballerina is one of 27 bronze casts of a wax original sculpted in 1880 and enhanced by an actual tulle tutu and satin hair ribbon. The previous world record for a sculpture was \$3.63 million, set at Christie's in New York last May by Giacometti's "Large Wom-an Standing II." "If the Democrats want to save Ed Meese, who wants to get him?" I asked.

"The Republicans. They keep trying to push him out the window. They think Meese is a liability to the party and should walk the plank as soon as possible. We intend to fight them every step of the way. It's the least we can do for an attorney general who has brought so much respect and prestige to the judicial system."

"I didn't know there were that many Meese-loving Democrats in this land."

"It doesn't matter whether you're a Democrat or a Republican. What counts is how you feel about Wedtech, and whether Ed had a right to help them get defense contracts. The 'Save Ed Meese Foundation' believes if someone who works in the White House can't help his friends, then we'll never have a decent government." "Does George Bush feel this

"I don't think so. I went to his house the other day to ask for a donation and he turned me down. He said although he has no reason to see Ed Meese go, he has no

reason for him to stay." "It figures," I said. "I've oever seen George give money to save a Republican attorney general in his

"Well, are you going to donate to the cause or aren't you?" "I'd like to. What do wu plan to

do with the money?" "We're going to have a big rally outside the Justice Department and

call it 'Honor Ed Meese Day.' Then we're going to barrage the White House with signatures asking the president to keep Meese on no matter how damaging the special pros-ecutor's report is. And finally we're going to ask Reagan to pardon

"While he's attorney general?" I

said. "It would be the best time because it would show that Mr. Reagan has confidence in his people. Now how about coughing up a few gold pieces for good old Ed?" "I'd like to, Doubleday, but 1 already gave in the grand jury

**Finding Stars in German Kitchens** 

By Serge Schmemann

New York Times Service MUNICH — "The paprika sauce," his voice and glancing around, "is of a thin constituents". consistency." His companion nodded. "The rabbit is not very exciting," he whispered.

Such talk would oormally inspire a sar-castic quip, especially in a land where coli-nary thrills are more often measured in wursts and schnitzels. But this time, a reporter eating lunch with the critical pair felt a tinge of conspiratorial excitement. Suppressing his naïve conclusion that the food was great, he glanced at the maître d'hôtel, who was sharing a joke by the door with two waiters.

If be only knew, Perhaps be could have guessed; not many German executives discuss the menu at length or order four courses at lunch. But nothing else in their dress or demeanor suggested that Jochen Jentsch and Alfred Bercher were anything more than a pair of traveling salesmen, stroking a wavering cli-ent or maybe milking the expense account.

In reality, they are inspectors for Miche-lin's red guide to West Germany, an annual listing of hotels and restaurants by the French tire manufacturer, whose stars are often considered the single most important measure of excellence for European restau-

rants. Jentsch and Bercher were in the middle of a two-week inspection tour of Munich, where French cuisine established its Gerof the celebrated Alfred Walterspiel

Munich's legendary passion for steins of quickly reassured him. beer and boiled Weisswurst has not abated, ly, that appetite has been sated. It was here published.

in 1979 that the Austrian chef Eckart Witzigmann, a disciple of Walterspiel and of where he still presides. Witzigmann's arrival in Munich in 1972,

sponsored by a businessman who felt that the city should have a fine restaurant for the Olympic Games that year, is regarded suffici-by many as Day 1 of West Germany's faces.

postwar culinary reawakening. That res-Witzigmann left to start Aubergine. Later, Tantris also won a third star. Of several meals with the Michelio men, the four-course feast at Aubergine was the only one during which both closed their

In these cases the inspectors announce themselves; they presume that the six or seven years likely to pass between visits under the routine rotation of Michelin inspections is sufficient to erase the memory of their

Witzigmann, however, seemed to inspire taurant, Tantris, rose to two stars before a special awe; the inspectors admitted that they were sampling his cooking less to judge than to be reminded of the standards by which to judge others.

Witzigmann's success has inspired considerable movement in West Germany's eyes and moaned softly with pleasure: culinary world over the past 15 years, the Jentsch over ravioli stuffed with fresh mo-inspectors said. The 1966 Michelin guide

listed 66 one-star restaurants; there were no two- or three-star establishments. By 1976 there were 169 restaurants with one star and 7 with two stars.

United Press In

Today, 180 West German restaurants boast a Michelin star, nine have two stars and four have three. At the same time, Italian, French, Greek and other European restaurants of all sizes and quality have proliferated, further assailing West Germany's calinary provincialism. The change has not been revolutionary,

however. For most West Germans, dining out still means lots of pork, cabbage and oily french fries with canned gravy at a local Gasthaus, followed by heavy pastry

slathered in thick whipped cream. "Here," Jentsch explained, "eating has always been done mainly to stop being hungry," while in France, "even for simple families, food has always been part of the culture.

Witzigmann, while complimenting West German chefs on developing local food resources, said he still imports most ingredients from France. "I can sometimes get good pigeon here," he said, "but if I oeed 100 pigeons of gnaranteed quality, I can

only get that from France." Not surprisingly, West Germany's 193 starred restaurants are but a dim cluster compared with the French constellation of 635, of which 18 are triples. But outside the are getting more casual, but certain stan-Gallic world, West Germans can stand dards should be maintained."

Jeausch and Bercher are among eight inspectors — all Germans, all with backand customs.

What makes their job the stuff of legend and anecdote is the fact that they feed twice a day, five times a week, about seven months out of each year — on dishes that many mortals taste only on special occa-ส์กกร

"Occasionally, you need a big pork roast with dumphings," Jentsch confessed. As the two inspectors described it over a

final meal at a restaurant that was a strong candidate for a second star, the birth of a stellar restaurant is a long-drawn-out affair

we know the chef, then three or four visits may be enough," said Bercher, a longtime Michelin inspector in his early 40s whose credentials include experience as a waiter at a premier London hotel. "But if the results differ, we wait," he said. "We never want to be rushed into a decision."

For two or three stars, "we need a much longer period to be sure that there's a lasting standard," he said. "A two-star has to be exceptional, with a consistently original and exciting cuisine. Three stars has to be perfect. Everything: the china, the crys-tal, the service and, of course, the food." The fourth and latest West German restaurant to win three stars, Im Schiffchen in Düsseldorf, was a candidate for three years after the first good reports reached Michelin. But inspectors returned and found that the restaurant had moved from street level

Losing a star is considerably easier. The departure of the chef is normally enough to place a three-star establishment on proba-

rabbit was a bit boring and the sance too thin, an elegant place whose venerable name has been graced with a single star through many editions of the Michelin? "The place must be watched," Jentsch whispered. "Look at the waiters gossiping in the corner. In a place like this, they've got to be right here when needed, but only then. Times are changing, of course. Things

proud: Britain and Ireland together have only 47 stars, and Italy, though roughly even with the West Germans in starred establishments, has only one with three stars.
